CONTAINER BARS/ RESTAURANTS

KITCHEN/FOOD SERVICE 20'/40'

The Kitchen Container is a self-contained commercial shipping container kitchen that can be configured as a mobile or permanent classified unit and includes everything you need to conduct a full-service food company.

This conceptual design is based upon a preliminary review of entitlement requirements and on unverified and possibly incomplete site and/or building information, and is intended merely to assist in exploring how the project might be developed. Signage shown is for illustrative purposes only and does not necessarily reflect municipal code compliance

Size of Container	Function	Starting Prices
20'	Restaurant Service / Kitchen	\$ 138,500
40'	Restaurant Service / Kitchen	\$ 228,500
Dimensions		
20' Kitchen		20' L x 8' W x 8' H
40' Kitchen		40' L x 8' W x 8' H

- Depending on the needs, sitting design can be done for the inside or outside.
- The prices listed above are rough estimates that may vary depending on the cost of the endeavor at the time of purchase. Containers are a commodity, and their prices may fluctuate in tandem with the costs of final finishes and necessary equipment.
- Prices may differ by 15%-20% (+/-).
- Designing and Drawings fees are not included in above.
- The expense of cooking equipment is not included in the preliminary prices.
- Costs may differ depending on dimension changes, material changes, quality changes, special requirements, and so on.
- These points are applicable for any function.
- This price does not include equipment, pre-construction, site development, permits or inspections, transportation & installation.

This conceptual design is based upon a preliminary review of entitlement requirements and on unverified and possibly incomplete site and/or building information, and is intended merely to assist in exploring how the project might be developed.
